

K_UP

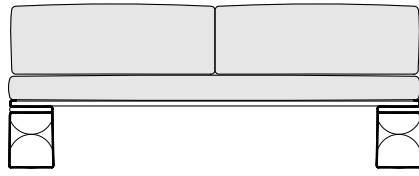

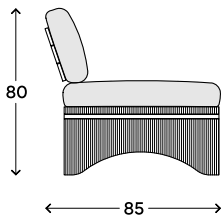

K_UP è un sistema di imbottiti e complementi che unisce struttura e materia in un equilibrio leggero e solido. Le doghe in legno massello di iroko si sviluppano come un impalcato sospeso, sostenuto da basi laterali in stampa 3D che ne definiscono l'identità. Pensato per l'outdoor e gli spazi a contatto con la natura, K_UP combina innovazione, eleganza e comfort in un linguaggio architettonico essenziale.

K_UP is a system of upholstered seating and complements that balances structure and material in a light yet solid composition. Iroko solid wood slats form a suspended platform, supported by 3D-printed lateral bases that define its identity. Designed for outdoor and nature-connected spaces, K_UP combines innovation, elegance, and comfort in an architectural language.
